

Wrap up → Outlook

→ Who does what to secure the future of our network and the collection management?

Wrap up → Outlook

- is convinced of the importance and quality of the initiative
 - SCNAT board mandated SB to further develop future collaboration and financing models
 - develops means to acquire third party money to bridge 2025-28
 - allocates resources in preparation of multiannual SCNAT planning 2029ff (process starts in 2025!)
- SCNAT**
- provides its network
 - collaborates on implanting common structures with MusNatColl and InfoSpecies

MusNatColl

**Swiss
CollNet
SVNHC**

**tbc
soon!**

- decides on professional office to promote the network and future collaboration models
- convinces members to continue collection management
- curators/directors convince their governing bodies (cantons, cities) to support collection management permanently, like all other museum tasks. Collections are in the responsibility of GB-ies!
- collaborates on implanting common structures with SCNAT and InfoSpecies

InfoSpecies

- continues IT developments and links to international data portals (GBIF.org, etc.)
- convinces FOEN to jointly handle observation and collection data permanently: Swiss Bio Diversity Data Network!
