

ERA-CLIM2 - Climate Reanalyses and Services for Society

14 December 2017, 9:15-18:30
Kuppelsaal, Main Building, University of Bern

PROGRAM

- | | |
|-----------|---|
| 0915-0920 | <i>Welcome</i> Christian Leumann (Rector) Univ. Bern, Switzerland |
| 0925-0940 | <i>Introduction</i> Roberto Buizza, ECMWF, UK |
| 0940-1000 | <i>New Reanalyses for Society</i> Patrick Laloyaux, ECMWF, UK |
| 1000-1020 | <i>Ocean data assimilation for reanalysis</i> Matthew Martin, Met Office, UK |
| 1020-1050 | Coffee break |
| 1050-1110 | <i>Coupled Data Assimilation Methods</i> Andrea Storto, CMCC, Italy |
| 1110-1130 | <i>Observations for Reanalyses</i> Nick Rayner, Met Office, UK |
| 1130-1150 | <i>Importance of Satellite Data</i> Jörg Schulz, EUMETSAT, Germany |
| 1150-1210 | <i>Reducing uncertainties in reanalysis input and products</i>
Leopold Haimberger, Univ. Vienna, Austria |
| 1210-1230 | Discussion |
| 1230-1430 | Lunch break |
| 1430-1450 | <i>Developing a truly global framework for climate services: the GFCs</i>
Michel Jarraud (former Secretary General of WMO) |
| 1450-1510 | <i>Overview of ERA-CLIM2</i> Roberto Buizza, ECMWF, UK |
| 1510-1530 | <i>Reanalysis within Europe's Copernicus Initiative</i> Jean-Noël Thépaut,
Copernicus C3S, UK |
| 1530-1620 | Coffee break |
| 1620-1640 | <i>The Swiss National Center for Climate Services</i> Bertrand Calpini,
MeteoSwiss, Switzerland |
| 1640-1700 | <i>New European capabilities from space</i> Jörg Schulz, EUMETSAT, Germany |
| 1720-1720 | <i>The Global Climate Observing System (GCOS)</i>
Carolin Richter, GCOS/WMO, Switzerland |
| 1720-1740 | <i>Reanalysis Stories</i> Stefan Brönnimann, Univ. Bern, Switzerland |
| 1740-1830 | Reception |

Participation is free of charge, please register: climate.services@giub.unibe.ch
