

Presentation of the IPBES assessment of biodiversity
and ecosystem services in Europe and Central Asia

Bern, 6 June 2018

Opening remarks

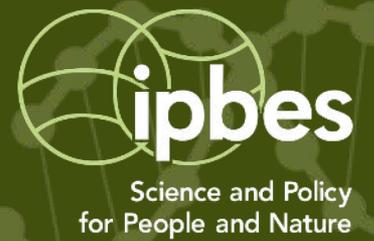

Anne Larigauderie, Executive Secretary

1.

What is IPBES?

The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES)

- IPBES's mission:

To strengthen knowledge foundations for better policy through science, for the conservation and sustainable use of biodiversity, long-term human well-being and sustainable development.

- An independent intergovernmental body, established in 2012 by Governments, with currently 130 Members
- IPBES is currently implementing its first work programme (2014-2018)
- Collaborative partnership arrangement with UNEP, UNESCO, FAO and UNDP
- Secretariat hosted by Germany, in Bonn

2.

The overall policy context

The overall policy context

- The 2030 Agenda for Sustainable development (Sustainable Development Goals)
- The Strategic Plan for Biodiversity 2011-2020, and the post 2020 Strategic Plan
- The Paris Agreement on Climate Change

The users of IPBES products

- Governments
- Media
