Group discussions

The objectives of these group discussions are to allow the participants to exchange informally about their ideas and network, to bring similar initiatives together and to gather feedback for SwissCollNet.

The following list of themes will be open for group discussions. Participants will be asked to choose a group during the workshop, keeping a maximum of 10 persons in each group.

If a theme seems to be missing in this list, don't hesitate to suggest it to us at the moment of your registration or at swisscollnet@scnat.ch.

List of potential themes

- Project financing
- Digitization - scanning
- Digitization - database, CMS
- Conditioning
- Training
- Earth sciences collections
- Paleontology collections
- Botany collections
- Vertebrate collections
- Entomology collections
- Other Invertebrate collections
- Fluid collections
