Visit of the High Altitude Research Station Jungfrauoch Besuch der Hochalpinen Forschungsstation Jungfrauoch

Photo credits: www.hfsjg.ch

The SGM is pleased to invite its members to the Bernese Alps for a visit to the High Altitude Research Station on the Jungfrauoch (3454 m asl) on **Friday, 23 August 2024**. The visit will include guided tours of the research station and the Sphinx observatory.

Price: 30 SFr. per person (covers the journey from Grindelwald to Jungfrauoch and back, includes sponsoring by SGM)

Registration: sgm-meteo.ch/activities/registration until **23 July**

NB: due to the limited space in the research station only SGM members can participate; registration may close earlier if the maximum allowed number of participants is reached

In addition to the guided tours there will be enough time to enjoy the numerous touristic attractions (see the program on the back).

Registration:

Program:

9:35 Meeting point at Grindelwald Terminal (train from Zürich HB at 7:02, from Bern at 8:04)

10:41 Arrival at Jungfrauoch

10:45-13:00 Free time for sightseeing / small hikes / lunch

13:00-14:00 First guided tour (group 1: research station; group 2: Sphinx observatory)

14:30-15:30 Second guided tour (inverted groups)

16:17 Return (arrival in Bern 18:52, Zürich HB 19:58)

The guided tours will be led by Dr. Martin Steinbacher (Empa) and by the station's custodians.

Insurance is the responsibility of the participants. Given the altitude, winter clothing is required, as well as sunglasses and sunscreen.

Please contact board-sgm@sympa.ethz.ch for any questions or requests.
