

CHIPP Code of Conduct

At CHIPP, we are committed to fostering an environment of respect, professionalism, and collaboration. As a member of the CHIPP community, you are expected to adhere to the following guidelines:

- **Respect and Professionalism:** Treat all members with respect and maintain a professional demeanor in all interactions.
- **Inclusivity:** Promote an inclusive atmosphere where everyone feels welcome, regardless of background, identity, or perspective.

If you experience or witness any behavior that does not align with these principles, please report it to any member of the CHIPP Executive Board. We will address all concerns confidentially and, if necessary, in collaboration with the relevant institutions to ensure a respectful and supportive community.

By adhering to these guidelines, we can ensure that CHIPP remains a place of productive and positive scientific exchange.
