Friedrich-Miescher-Award 2016

Dear colleague,

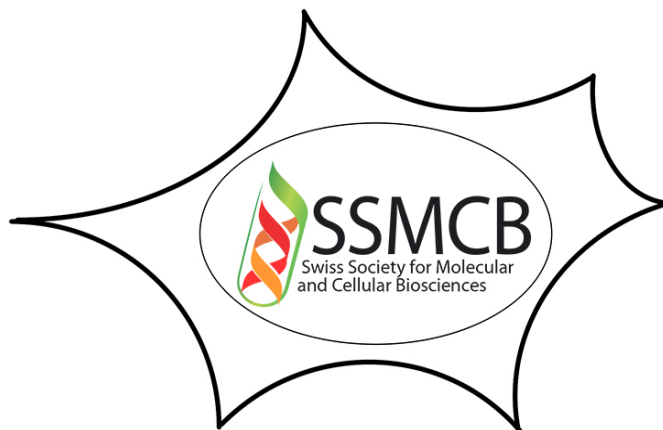

Enclosed with this note please find the announcement of the Friedrich-Miescher-Award 2016. Please feel encouraged to nominate candidates for the award. If possible, I would appreciate if you could display this announcement at a clearly visible location in your department/institution. Thank you very much for your collaboration. Please note the **deadline has been extended to of November 15th, 2015** for submission.

Sincerely,

Daniel Legler
Secretary of SSMCB

SSMCB is member of

Friedrich-Miescher-Award 2016

To commemorate the 100-year anniversary of the discovery of nucleic acids the Swiss Society for Molecular and Cellular Biosciences (formerly Swiss Society for Biochemistry) has created the Friedrich-Miescher-Award. The prize is intended to honour young biochemists and is donated by the Friedrich-Miescher-Institute of the Novartis Research Foundation in Basel.

The following guidelines apply for nominations:

1. The Friedrich-Miescher-Award may be awarded once every year to a young scientist for outstanding achievements in biochemistry.
2. Candidates are eligible who have not yet reached the age of 40 years (for women with children 42) on January 1st of the award year.
3. Preference will be given to candidates with a documented record of independent research.
4. The scientific work must have been carried out in Switzerland or by Swiss scientists abroad.

Applications or nominations, including a letter stating the relevance of the candidate's scientific work, his/her CV, list of publication and embedded links to the four most relevant publications should be submitted by **November 15th, 2015** by e-mail as a single PDF file to the secretary of the Swiss Society for Molecular and Cellular Biosciences: Prof. Dr. Daniel Legler [daniel.legler@bitg.ch], Biotechnology Institute Thurgau (BITg) at the University of Konstanz, Unterseestrasse 47, CH-8280 Kreuzlingen.
