

## CHIPP Prize 2023 announcement

### **2023 CHIPP Prize** ***for the best PhD student in experimental or theoretical particle physics***

As in past years, also in 2023 The Swiss Institute of Particle Physics (CHIPP) offers a prize for the best PhD student in experimental or theoretical particle physics.

All PhD students affiliated to CHIPP, including former students who defended their PhD thesis in the 12 months prior to the application deadline, are invited to submit their application. In the evaluation, emphasis will be given to the quality of the PhD scientific work and to its relevance within the student's research group, as well as to novel ideas brought up by the candidate.

Applicants must submit their CV, list of publications and internal notes, as well as a report ( $\leq 5$  pages, including figures and references) outlining their achievements within the PhD work. In addition, a proposal/recommendation letter by the thesis supervisor, and reference letters by two other professors or researchers not belonging to their institution shall be sent directly to the address given below. All papers and communications must be written in English.

The prize amounts to 3'000 CHF. The winner will be announced at the CHIPP Plenary meeting during the SPS/CHIPP Annual meeting in September 2023. The winner will be asked to give a talk presenting his/her current research activity.

More information on the Prize including details about the selection process can be found on the CHIPP [web site](#).

**Deadline for application: 1 April 2023.**

Applications shall be sent by email to:

**CHIPP Selection Committee**
