CH-QUAT Annual Meeting 2016

Recent results in Quaternary research, archeology, and applied geology

Saturday 30.01.2016, 10:00 - 16:00, NO C60
Department of Earth Science, ETH Zürich
Clausiusstrasse 26, CH -8057 Zürich

The aim of the meeting is to bring people together working in the Quaternary and being able to discuss their results across disciplines. The program features a series of invited presentations to provide an insight into selected topics of current studies. In addition, we are calling for contributions, especially from students (BSc/M-Sc/PhD) and young scientists, to present their ongoing research in the poster session. Contributions can be in English, German, French or Italian.

Invited Talks

Peter Haldimann	**Neue quartärgeologische Erkenntnisse im Raum Zürich**
Urs Leuzinger	**Der frühmesolithischer Abri Berglibalm im Bisistal, Gemeinde Muotathal SZ**
Conradin Zahno	**„Achtung Steinschlag!“ – vom Umgang mit Gefahren und Risiken**
Regina Reber	**Unravelling the moisture sources of the Alpine Glaciers using tunnel valleys as constraints"**
Curdin Cantieni:	**Spezielle geotechnische Verhältnisse im Umfeld des Flimser Berg-sturzes, Graubünden, Schweiz**
Sascha Winterberg	**Drainage development of the Alps analysed with elevation data**

Registration: By e-mail (adrian.gilli@erdw.ethz.ch) before 15.01.2016. For poster presentations please provide the title and author line.

Registration Fee (cash payment on site, buffet lunch included):

CH-QUAT members:	Non- Members:
Regular member: 40.- CHF	Regular: 80.-CHF
Student member: 20.-CHF	Student: 40.-CHF

The organizing comittee: Susan Ivy-Ochs, Adi Gilli, Irka Hajdas
