CH-QUAT Annual Meeting 2019

Anthropocene: Human impact during the Quaternary

Saturday 30.03.2019 8:30 - 16:00

University of Basel, Petersplatz 1

Hörsaal 001

The theme of this year's meeting is "Anthropocene: Human Impact during the Quaternary". Special focus will be on the interaction of human with nature, the effect of the environment on humans and the archives of these interaction will be discussed. The aim is to provide information on the current state of research. Therefore, we allocate time for the talks of the invited speakers and discussion. In addition to the invited talks, we are calling for contributions, especially from students (BSc/MSc/PhD) and young scientists, to present their ongoing research in poster sessions. Contributions can be in English, German, French or Italian.

Program

08:30 - 09:00	Registration
09:00 - 09:15	Welcome
09:15 - 09:45	Jochen Reinhard & Renata Huber (Kantonsarchäologie Zug): <i>Of mammoth and pine, of elk and man - new insights into the Late Glacial of Canton Zug.</i>
