Swiss Society for Meteorology

Schweizerische Gesellschaft für Meteorologie

# Symposium & General Assembly 2019

8 November 2019

## Presentations

- **Michiko Hama (NCCS)**  
The National Centre for Climate Services – Insights into the Swiss Coordination Mechanism for Climate-sensitive Decision-making
- **Sebastian Schemm (ETHZ)**  
Extratropical cyclones and their attending fronts
- **Johannes Stähelin (ETHZ)**  
Key contributions of the Light Climatic Observatory of Arosa to the global ozone research

## Table talks about Master projects

As in recent years, there will be table talks where Master students from different Swiss Universities will present their work. The talks will last about 10 min and the participants are invited to join this informal setting to learn more about the different projects, ask questions and provide some hints to the students.

## Poster presentations

Posters on all aspects of weather and climate are welcome. The posters will be set up throughout the Symposium for discussion.

## Target audience and registration

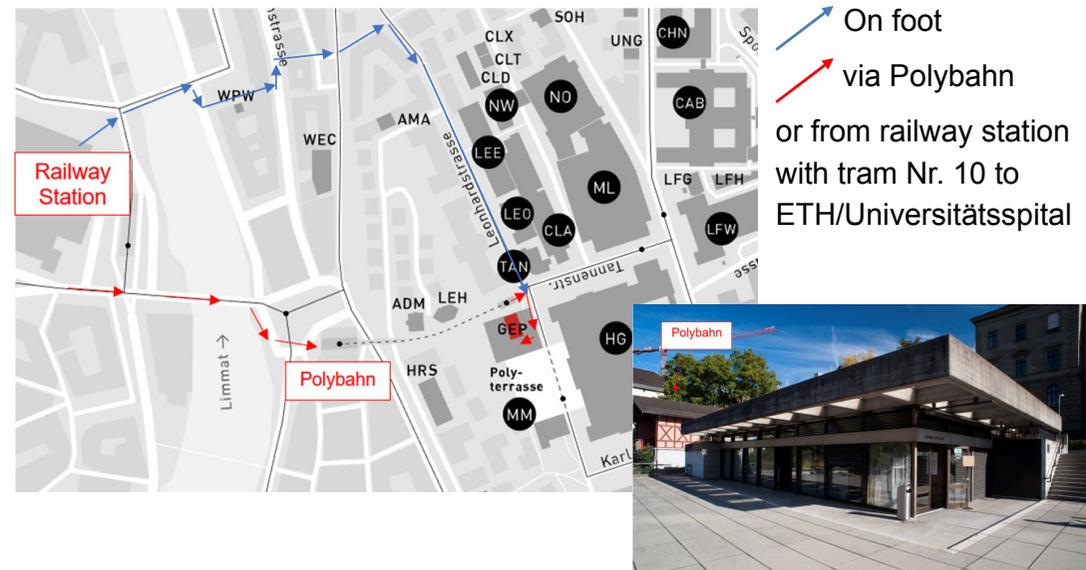

The symposium is open to all people interested in weather and climate. In particular, the SGM invites Master and PhD students of climate and atmospheric sciences, collaborators of private and national weather services, private companies dealing with climate and weather and retired professionals. The symposium is free of charge and an apero is provided.

Please register until 8 October 2019 at

[www.naturwissenschaften.ch/organisations/sgm](http://www.naturwissenschaften.ch/organisations/sgm)

## Venue

Alumni-Pavillon (GEP), Leonhardstrasse 34, 8092 Zürich

On foot  
via Polybahn  
or from railway station with tram Nr. 10 to ETH/Universitätsspital
